ABOUT ME

Dynamic front-end developer and event manager with proven expertise in responsive design and team coordination. At Kineton, I spearheaded the development of a high-performance website, showcasing my proficiency in HTML/CSS and JavaScript. Experienced in leading diverse teams at Riviera & Gravitas, I excel in leveraging technical and interpersonal skills to achieve exceptional outcomes. Smart student studying in academic discipline and looking for related experience. Willing to listen and learn and excited to contribute in real-world environment to help find practical, actionable solutions for current needs.

EXPERIENCE

Event Manager, 02/2023 - Current Riviera & Gravitas · Vellore, IN

I have been working on the organizing committee for the "Annual biggest cultural event(Riviera)" and "Annual biggest Technical Event(Gravitas)" for VIT since my first year. Worked thrice in Riviera and twice in Gravitas.

- I have the experience of managing multiple venues and their events.
- I have gained experience in coordinating intra- and inter-team activities of the committee.

Intern, 02/2025 - 05/2025 Kineton · Vellore, IN

I am working as a front-end developer intern at a startup called Kineton, and my job there is to develop a website for the company.

- Created custom responsive designs that optimized the website layout for various devices.
- To maintain low latency of the website, I am using VanillaJS with HTML5 and Tailwind CSS.
- Identified issues with security system performance logs and notified appropriate personnel.
- Debugged existing code to identify and fix bugs or performance issues.
- Resolved cross-browser compatibility issues for consistent look across different platforms.

PROJECTS

Diabetes Prediction

An AI-powered web application that predicts diabetes risk using Hyperparametrized tuning of Artificial Neural Networks. The model was trained on a comprehensive dataset and achieves 94% accuracy in early detection. Techstack: Nextjs, python
